## EDUCATION

### Full Stack Web Development

Masai School  
July 2024-present

### Bachelor of Technology (Computer Science)

S.K.N. Sinhgad College of  
Engineering, Pandharpur  
April 2020 - May 2024

## TECHNICAL SKILLS

React | JavaScript | HTML5 |  
CSS3 | Git |  
Responsive Web Design |  
Tailwind CSS | Redux

## SOFT SKILLS

Communication |  
Time Management | Teamwork |  
Problem Solving

## INTERESTS

- Photography

## ACHIEVEMENTS

Construct Week Winner   
Masai School

The Construct Week winner developed an impressive full-stack JavaScript app, demonstrating strong front-end and back-end skills while effectively integrating the technologies to create a seamless and functional application.

# Sumit Audumbar Mali

## Frontend Developer(React)

### PROFESSIONAL SUMMARY

Dynamic Frontend Developer with expertise in React.js, HTML, and CSS, skilled in crafting responsive, scalable interfaces. Proficient in using Generative AI to optimize development speed and eager to learn new tech stacks swiftly. Adept at collaborating to enhance user experiences and ensuring cross-browser compatibility.

### PROJECTS

#### 1. JPP Compiler | |

JavaScript | Git | HTML5 | CSS3 |

##### Responsive Web Design | GitHub

- Utilized conditional rendering to ensure app scalability.
- Implemented responsive design for seamless, user-friendly experience across devices.
- Developed data structures & documentation for MatLang programming language.
- Enabled access to MatLang via CDN for effective coding learning platform.
- Integrated error-handling and focused on scalable, interactive web app development.

#### 2. Myntra Clone | |

JavaScript | HTML5 | CSS3 | Tailwind

- Developed a responsive web application for a Myntra clone using HTML, CSS, and Tailwind CSS to ensure cross-browser compatibility.
- Collaborated with a team to design and implement responsive layouts for home and living pages, focusing on pixel-perfect designs.
- Enhanced the user experience by integrating interactive elements such as functional navbars and responsive product grids.
- Optimized the application for various devices, ensuring seamless performance across desktops, tablets, and mobile screens.
- Focused on maintaining high-quality and reusable code, leveraging Tailwind CSS for efficient styling.
